# HAMILTON NEWS.

(From our own Correspondent.)

HAMILTON, Sept. 30

The principal question that still agitates the Hamilton community is the

## RAILWAY DEADLOCK

Between the Hamilton and North-Western Railway and the Great Western as to the crossing of the former over the track of the latter at Wellington Square. The one party laid down at night the crossing fixtures, the other per force took them up the next day. The point in dispute is a legal one. The Great Western has served a writ of injunction on the Hamilton and North-Western—decision in the Court on Monday—and the latter has appealed to the Dominion Government. Their decision will be known on Monday, as the Privy Council was called to consider the case to-day. Meantime matters remain in statu quo.

## RAD ACCIDENT.

To-day Mr. Holden, a carpenter, his son, and another man, were working on the Gore Methodist church, repairing the steeple. Holden was the contractor, and erected the scaffolding himself. It was of too unsubstantial a character, and gave way under the weight of the three men, precipitating them all to the ground. Holden in his fall struck his head against the coping stone of the building, and fell on his head. His skull was crushed, causing instant death. His son escaped unhurt, but the other man, Cyrus Tubb, had his arm dislocated by the fall.

## ANOTHER ACCIDENT.

Edward McMahon fell to-day, while attending the masons as a labourer, from the tower of the Catholic church in course of erection, and was taken up insensible. He fell a distance of sixty feet, but no bones were broken.

## MARKETS.

The general market to-day was very largely supplied. The vegetables were infinitely superior to those exhibited either at the Horticultural or Provincial shows. Potatoes of the best quality were sold at 75 cents per bag. First-class butter brought from 25 to 28 cents per pound; cheese, 13 to 14 cents; eggs, 18 to 20 cents; beef, 5 to 7 cents; hindquarters and forequarters from 4 to 6 cents; hogs, 7 1/2 cents. It was an exceedingly full market.

## GRAIN MARKET.

There were about two hundred loads of grain in the market to-day, which is considered by buyers a more than average market for this season. White wheat brought \$1, and choice samples \$1 07; red, 95 cents to \$1; spring, \$1 00 to \$1 04; barley, 160 to 74 cents for very choice; peas, 72 cents; oats, 35 to 36; Canadian corn, 55 to 60; American, 30 to 55. At the above prices there was an unusually ready sale, but the close of the market indicated no upward

Two cards were found at the same time, on which writing appeared to the effect that the writer had disgraced himself and his friends, and had better be out of the way. On this information being communicated to the police of the city, they communicated the facts to the friends of the young man, and this morning further search was made in the woods, when a pair of trousers and braces were found sixty or seventy yards from the spot.

are unbounded, and beyond what most of you Dalhousie people could imagine. I am cutting barley now which I sowed on the 1st of June, which will yield nearly sixty bushels to the acre. I planted potatoes about May 10th, and sold the new potatoes (nearly full grown) on 12th or 14th of July, in Winnipeg, at \$2 to \$2.50 per bushel. My wheat was badly spoiled by the wet season, but will yield at least twenty-five bushels to the acre, of finer quality of grain than you ever saw.

The money market has quieted down with the opening of the month, and as compared with the third week of last month there is very little change, there being on the whole a slightly better demand however, from 6 to 8 per cent. on the general rate for commercial discounts, the former being only for choice bills.

#### THE RAILWAY DIFFICULTY.

To-day the writ of injunction taken out by the Great Western Railway against the Hamilton and North-western to prevent the latter from crossing the track of the former was to have been argued in Toronto, but the injunction was enlarged till after the Dominion Government had decided the question of its jurisdiction, and given a decision on the matter. Next Thursday was fixed upon by the Ottawa Government to hear the matter argued; but a telegram was received here this afternoon announcing that, at the request of the Great Western, the day fixed was changed to next Thursday week, when the respective parties interested in the matter will appear before the Privy Council to make good, if they can, their contentions. It is to be regretted that there has been so much delay in settling so simple a matter, about which there never ought to have been a question raised at all.

A meeting of the congregation of All Saints' Church is being held this evening with a view of separating from Christ's Church, and forming a new parish. The movement is favourably regarded by Bishop Fuller and the members of Christ's Church.

span of horses, and they work double or single, in trains, or cart harness all the same. As for what is said about the climate being too cold here, summer and winter, it is all nonsense. Winter is colder, but far pleasanter than in Lanark. Steady cold and little snow all winter. Just enough for good sleighing from about Christmas has been the rule since I came here. I prefer this climate to the Ontario climate, as far as I am concerned. But we have one half too many mosquitoes this summer. As poor James Howes used to say, they are a "terror." We have had no grasshoppers here yet, and as they never come in as late as this, I suppose we are safe for another year. This crop is safe any way, and as no eggs are here, next year's crop is presumably safe also, as they never destroy early grain the year they come in. On this account this would be a good year for new settlers, as they are now sure of cheap food and seed, and if they buy improved land they are sure of a crop next year. Everything here is plentiful and cheap this year—not very much above Lanark prices, except butter, beef, pork, eggs, &c., which are 100 to 500 per cent. above your prices. If you did not buy land you might find some place to rent for a few years until you could suit yourself in buying a farm, and you would know better how to choose after a few years' residence here. A great many take this plan, and I think it a very wise one.

Yours truly,  
JOHN W. PARKER.

Says the Free Press of the 21st September:—Dime rumour, always busy, has it that owing to a late decision of the Court of Revision, founded on the opinion of the city solicitor, that the Hudson's Bay Company's goods in transit are subject to city taxation, the Company have decided to transact in future all their extensive wholesale and agency business outside the city limits. They are now busy shipping off their surplus stock before close of navigation, and are preparing warehouses outside the city for the storage of their reserves. The Fort here, it is also asserted, and we believe correctly, will in future, be merely used as a retail store, the wholesale trade being done entirely by samples. The taxation in the present instance against which the Company disclaim is on goods involved and marked in London direct for northern districts, and which were merely passing through the city when the assessors made their rounds. Their value is placed at about \$100,000—the taxes on which will come to a good round sum. The goods, it appears, arrived too late for shipment to their destination last fall, and were taken out of bond and forwarded this spring. An appeal to the Courts has been made, which, if successful, will kind of set our rate at a higher figure than even is now contemplated. It is stated that the action of the Council in this matter is the reverse of that of previous Councils.

#### THE "KISTO'WHUSTLES."

At the meeting of the Presbytery of London on Tuesday last a protest and an appeal was brought in from the congregation of St. Thomas, against instrumental music, signed by 81 members and 80 adherents. After a great deal of discussion as to what was to be done with the paper, the Presbytery agreed to hear the delegates. Messrs. John Walker and Donald Connall supported the protest and appeal, and Messrs Jas. McAdam and Colin McDougall appeared on behalf of the congregation. Mr. McDougall spoke at some length, and whilst dealing very charitably with the appellants, defended very ably the action of the congregation and the present peace and harmony of the peo-

#### INQUEST.

The inquest held by Dr. Wolverton on the body of Jefferson Holden, who was killed on Saturday by falling from the steeple of the Gore-street Methodist Church, was brought to a close this evening. The verdict was in accordance with the facts as stated in my last letter, viz., that the deceased came to his death by the giving way of the scaffold built by himself, or under his direction, by which he was precipitated to the ground, a distance of about fifty feet, and striking his head against the stone coping in his fall.

#### BUGLARY.

The residence of Mr. John Macpherson, Upper James-street, was entered by burglars on Saturday night and a quantity of clothing stolen. Nothing else of value was stolen.

### The Great Western and Hamilton and North Western.

Early Friday morning Mr. Macdonald, contractor of the H. & N. W. Railway, crossed the Great Western at Wellington Square. The Great Western subsequently sent down an engine and 110 men who tore up one length of rails on each side of the track. The Deputy Sheriff of Halton gave orders to replace the rails, which was done. A Great Western engine, however, stands on the track and impedes the progress of the H. & N. W. Legal proceedings are be- ing resorted to in reference to the matter.

—Detroit husbands and wives, es- pecially those who indulge in liquor drinking, sometimes—once in a great many years—have disputes. The other day when a Beach street couple were holding an angry argument, the husband raised his hands and ex- claimed: "O, Consistency, thou art a jewel!" The wife at once broke down, and as she sobbed, she gasped out: "You saw her at the Opera House, I suppose; but if she had to split wood, wash dishes, and take care of six children, she wouldn't look any better than I do—boo-hoo!"

—It is becoming more and more evident that while the Liquor Interest grows weaker and weaker in the country it is becoming stronger and still stronger in the cities.

THE FIRST ENGINE.—The first railway  
steam engine reached Milton the other day  
on the Hamilton and Northwestern road and  
the Champion thus records the effects upon  
the innocent cattle, &c., who beheld the  
startling phenomenon for the first time in  
their rustic lives: "There was a general  
panic among the live stock in the neighbor-  
hood. The cattle erected their tails and  
took to the woods; a flock of geese rose  
from Mr. Harrison's farm, and are supposed  
to be either sailing yet or cooling off on the  
icebergs around the north pole; one horse  
was so amazed that he rose on his hind  
legs suddenly and sprang his spine so badly  
that he has not been able to get his feet on the  
ground since, and another was frozen in his  
tracks with fright, and all efforts to thaw  
him out have proved ineffectual. A bull  
was seen standing on his head in a  
vain attempt to shoo the engine off. A  
hen, that had been in the habit of sitting  
on her eggs, and was very comfortable, was  
so frightened by the engine that she broke  
up her nest, and flew to the top of a tree.  
A young man, who was standing near the  
engine, and was looking at the engine, was  
so frightened that he fell back, and was  
run over by the engine, and was killed."

SABBATH SCHOOL ASSOCIATION COUNTY OF  
BRANT.—The eighth annual Convention of  
the above Association will be held in Wick-  
life Hall, Brantford, on the 23rd and 24th  
of January. Besides local friends, the fol-  
lowing from a distance are expected: Rev.  
W. Millard, General Secretary of Canada S.  
S. A. association, D. W. Beadle, Esq., Vice-  
President ditto, and J. Hughes, Esq., Public  
School Inspector, Toronto. The programme  
will be out in a few days.

ACCEPTED THE CALL.—The Rev. A. Van  
Camp, who preached for Emmanuel Church  
the past two Sabbaths, has accepted a un-  
animous call to the pastorate of this church,  
and will enter upon his labors on 8th instant.  
We are pleased to learn of this action of  
Emmanuel Church as we think the ac-  
quisition of Mr. Van Camp to the Minis-  
terial Conference of the town will be sensibly  
felt by that body. We welcome this reverend  
gentleman to our midst and hope his sojourn  
among us may prove pleasant to him.

STARTLING FIGURES.—The general ses-  
sions for the county began before Judge  
Jones this morning. In the course of his  
address to the Grand Jury, His Honor took  
occasion to remark on the startling fact that  
no less than 345 commitments had been  
made to the county goal since the first of  
June last, a period of six months, and of  
these 224 occurred since the first of October,  
a period of two months and ten days. In a  
very large majority of cases drink is the  
cause of the crime or poverty leading to in-  
carceration, and the speaker expressed the  
hope that some measures would be adopted  
to restrain the evil.

Y. M. C. ASSOCIATION LITERARY SOCIETY.—  
The programme arranged for Tuesday night  
had the effect of drawing a good audi-  
ence, and although an impromptu one was executed  
with a precision that would do no discredit  
to a more carefully prepared programme.  
The amateur quartette club, consisting of  
Messrs. Hardy, Howell, Morton and Wilkes,  
came fully up to the standard of first-class  
vocalists—in their songs not a discord was  
observed—but, on the other hand, the best  
of time and harmony was noticed. At the  
hour, the chairman, Mr. S. M. Thomson took  
the chair and proceeded with the programme  
by calling on Mr. Jas. Harley for a reading,  
after which a song by the quartette, "Kiss  
me, and I will go to sleep," was effectively  
rendered. A reading by Mr. A. K. Bunnell  
an address by Mr. C. Rutledge, a reading by  
Mr. Thomson, another song by the quartette
