10, 408 HAMED AND RAILWAYS.

Whenever a railway question is before ti-sthe people of Hamilton it is the fashion Limith gertain prople who either will not metady the bearings of a project upon their own ments, or who are incapable of doing so, to hold up the old Hamilton and Port Dover railway as a fearful warning against all such enterprises. With these people, apparently, the lesson of a failure is never try again." The Hamilton and "Port Dover matter may now be said to belong to a past generation; very tew of those who are bearing the responsibilities Elacathe present day know anything shout a with hundred thousand dollars were obtained from the city for it and the road ure came about very lew know at the present day, and without having the rac's fully presented it is impeople in say what lesson should be drawn from them." But after all was it 'so disagrous a failure? At the time it was so undoubtedly: "Still there was and the line and not was what work" which shibled the Hamilton and Leke Eric Company to not been done the present Company could not have attempted their enterprise with the resources in their possess old Huttilion and Port Dover was not treet delle uter de frement

Adopting the method of those who hold the bold Hamilton and Port Dover as a scarcorow, let us look at the literation of Hamilton's connection with rallways and see whether or not our experience has been disastrous. In the perience has inquity let us keep in under the second second to the seco shall have a fartforn to myse with and to may that territory there must be appropriately into it, there are the interest will be with the pare the interest will be with the pare the interest will be a second the will be a second to the second the second the second to factorial Hemilton' depends for its value divided annual value upon that condition being fulfilled. Cut like service. Mr. White stream of the service. About this time ar. Freeze and that if some additional aid could be pro-Georgetown, so, as to, fill up the gap in the bonus prism between the diffy and Wellington Square, and also supplement the defidency in Halton, beyond the Square, he might be able to arrange a contract for the whole road:

The Board were religious to entertain the idea of again applying for aid to the elect, but they felt that they must do Sity, but they felt that they must do
so if there was no other alternative.
There appeared to be such an alternative
in the possibility of finding a contractor
to take the work on the resource of the
Company as they stood, and in order to
lost the matter the Board determined to advertise for tenders on that basis. This was done in January last by the follow-ing advertisement published throughout Canada and in the Railway Gazette of the United States :

Scaled tenders, addressed to the scoretary, will be received up till the 23rd day of February next, for the various works, including the furnishing of rails, spikes and bolts, required in the construction of the Hamilton and Northwestern Railway, from Hamilton to Barrie, and from Clarksville to Collingwood, about 127 miles. Tenders will be re-calved for the construction of the whole line. on separate sections of same, for sells, sto, and for the different classes of work. Plans and specifications will be ready for inspection of 1810 February next, and forms of tender, and further information, can be had from the Chief Engineer at the Company's offices, Hamilton. The Company Compt bind themselves to accept the lowest or any MAITLAND YOUNG, -

Hamilton, Jan. 23. 1275.

Over seventy applications were made tor-information and tendering papers, but only thirteen tenders were sent in, most of them for iron; only two of them for construction, while none of them were at all eligible or such as the company

could deal withined by a Committee of Citizens and by the Railway Committee of the Council who were equally satisfied that none of the offers were of a practical character.

was received with other tenders, viz.:-

MONTESAL, 20th January, 1875.

WARD MEETING 1/2 HS 28 Suly 1875

is any agent in Ancaster for the distribution of the SPROTATOR.

The Daily Spectator.

WEDNESDAY EVENING. JULY 28th, 1876.

Hamilton and Northwestern Rallway.

MEETING IN WARD NO. 3. .

Last evening a large meeting of the electors of No 3 ward was held at the Bsy street engine house. The following prominent-oldis netwere present: Messrs. Tuckett,
Davis, Fitsgerald, McElroy, Smith, Sadher,
McGill, McGiwern, Barry, Walker and Mills.
Mr. Ross McElroy fork the chair of the
motion of Mr. Davis, seconded by Mr. G. E.

Tnekett. The chairman formally opened the meing, and stated that the meeting was cal for the purpose of discussing the Hamiland Northwestern by-law now before the people, and called upon Mr. Barry to addrect

the audience.

Mr Sanar regretted that he had been the andience.

Mr Sanar regretted that he had been called mon to speak. Li speaking on the subject of the by-law he would not speak against the Directors of the ratiway, but of their representative positions, as they were all good officers. If the prints at issue were only the granting of \$100.000 he would not be here to speak against it. But he inst no confidence in this Bi-law. The real issue was, mether it was putting \$100.000 in the relevant was pretting \$100.000 in the relevant to the Directors and contractors or not. All our property was mortgaged to one-fourth of its values atonging spants to other railways. The people wanted to know whether the granting of this \$100.000 would accure them this railway; but they were not sure of this, nor was the Bi-law binding; but they could legalise to see we how had a government of Opticis that would legalise anything at all, we make the waste to was at they had alresty constitution would regard any unit, as makes what it was, as they had directly lightlend an Act which has no equal in any obvious country—he refered to the last allowing Directors to be contractors. He had no conditions in this Company for this

sliowing D rectors to be contractors. He had no conditione in this Company for this example, and the fact that they would be owners of the rost when it would be intend.

If Example said its which it to Directors be spiral for incomistive. He took a deep the last in the by law and wanted to know is what direction the road was to come a result direction the road was to come a result of any in the trust direction the road was to come a result direction the road was to come a result of any in the fall of the result in the structure of the company, a first service. Passinent of the company, a first service to meet with no many influential sleeton, here to night. He said that Mr. Her's in constitution in results of the many influential sleeton, here to night. He said that Mr. Her's in the said that he saturate to result in the said the said the said to see the committed him militable he fair that he saturate to consider the fair that he saturate to consider the said that he saturate to the said the said that he saturate the results of the said that was equited committed the said that he said the said that he said that he said that he said that he said that

dered him off the platform and suiting the carried cered him on the platform said suiting tag's action to the word endeavoise to push him off. This action of the chairman's was evived with abouts of deri ion and cries of a free discussion," "fire play," and "ahreo cheers for Mr. Stuart, "which hast was heartly responded to. Mr. Fielding at this point olimbed upon the table and said he would be the street of the control of the co like Mr. Stuart to answer him a question.
This increased the uprost. A majority of those present ordered Fielding to get down or they would throw him out. Some of the or they would throw him out.

one miss of the briaw rushed forward to the table, and skaking their fism in Mr. Stuart's face, said he was afraid to auser an honest question, while at the came time that gouthman was doing his best to make himself heard, but finding that that would be impositive, he retired from the platform, leaving Mr. Maglil to address the electors.

That gentleman commenced by saying that the company was a pack of robbers and lecches on the bely politic. That it was their optention to ruin the city as the Hamilton & Port Dover road had done before. [Shaking his fist in Mr. Williams's face, he said : The Ontario Parliament had passed an act allowing Directors to be contractors, and that it was a most -

Here Mr Magiil became incoherent, and could to nothing but scream and shake his fist in Mf. Williams's face.

Recovering himself sligh ly, he yelled that Recovering nimeer sign 17, he yelled that if anints went into the Hamilton and North-western company, they would come out devils. Here he was interrupted by groans and cries of "Pull him off the table for the sake of the cause,"" Take that medman away, to." One of Mr. Magtil's integes pulled e to." him by the cost and advised aim to alt down which he did after he had thanked

the audience fr listening to him.

Mr William, M. P.P., here stept upon the table and said his career as a public man had been attacked by Mr. Magili, but those present knew what weight Mr. Magili. those present thew what weight har dispin bad, what his pu lie character was and what his private life had been, and here Mr. Magiil sprang forward and struck Mr. Williams with his welking stick. Mr Magi. was thrown back into the corner however, and a souffle averted.

Some parites present commenced to shout you, "no, no, Williams is right,"

Mr. Williams replied that if he had in-

mir, will have replied time in the hast re-greeted it. (Cheere.) Some parties had been trying to make a stal out of his av-tion in regard to the act authorizing directors to be contractors, but when the public feeling cooled down-Rete the chairman, Mr. MuEltoy, intersupied the speaker.

Mr. John Shith asked the Chairman to keep orderly himself, and thus show a good example to those present. (Cheers.) The Chairman ordered Mr. Smith to "shut

ip," or he'd turn him out. (Groans and

Mr. Magilt stepped upon the table at this innoture and moved, seconded by Mr. Barry that the the electors here present do pleage themselves to give the by-law under con-sideration their most determined opposition. Chairman declared the resolution

carried.

Some one binted to him in a whisper that It would be well, " just for the look of the thing," to put it to a vote.

ting, to put it to a vole.

After some healtation the Charman did
to. The show of hands was so equally
divided that it would be quite impossible for
an impartial Charman to decide which hall the majerity. The Chairman, however, a blaced the resolution cauld do The meeting then adjourned.

Mamilton and Lake Eric Railway Share holders' Meeting.

RESOLUTION PASSED INDUSTING AMALGAMATION WITH THE HAMILTON AND SORTEWENTERS HALLWAY—THE REASON WHY.

Yesterday afternoon, at four o'dlock, a large attendance of Shareholders of the Hamilton and Lake Erla Ballway assembled at the Company's buildings, corner of Cannon street and Ferguson avende. Mr. James Turnec'in the Chair.

the Unit.

The Secretary, Mr. A. A. Americos, hering read the advertisement calling the meeting. This Provident, Mr. Jame Tourin, taid, that this could only be regarded as an informal meeting, as the necessary legal volume.

Serms was said by the ring.

154.3 elmost delly something was said intong the press in reference to Canadian. Snanets Ture, even the old Hamilton debt was no regotten. The question had been discussed and the best brokers of London spoken to both without success. The Grand Trunk bad been interviewed, and that Company wouldn't and couldn't do any both thing towards giving a gustant of Amalgamation was necessary for the salva-tion of the road, so far as its independence was concerned.

The Secretary here read a report that we to be submitted, in reference to amalgama tion.

Mr. Warson sight I to have a report adopted in order to show the general feeling of the meeting.

Dr. Billings wished to know if the capital Company was but \$25,000 how its amaig mation with the Hamilton and Lake E Railway would benefit the latter road?
Wouldn't it in fact be detrimental to the H & L. E. Ballway ? Mr. John Strang bald that Di

Billing's qu stion was a very proper one, and should be answered fairly oue, and should be answered fairly. The Ramilton and North Western had a small share of capital at present, but it was proposed to increase it, and by an arrange-ment between certain parties here and in England, to take up a large amount of so as to create a share capital in a fair proportion to the bonds. This was the arrange ent to which some people objected, becau it was said that the parties taking up the stock would have too much power. Now, if they subscribed the stock, surely it was right they should have the power. Who else should govern the road but the stockholders? These stockholders intended to do their own work instead or employing strangers and paying them a profit. This was all that was proposed, and it was hard to see where it was wrong or did injustice to any one. The Company have a clause in their amended charter giving the sanction of law to their proceeding. It was approved by the Grav-ernment and by Parliament; not a member of the House opposed it. It was abound; therefore, to characterize this act in the way the opponents of the By-law were doing. Mr. Stuart said he was not surprised at the opposition of some men, whose motives were well known, but he was surprised at Mr. Tucket and such as he who had so great a stake in the city, and showed so unfriendly a feeling to the promoters of the road. He as sured the meeting that only the passing of the By-law could save either the Hamilton and North Western or the Hamilton and Lake Erfe.

Mr. JAMES WATSON thought the Directors of the Hamilton and Lane Erle Railroad had stuck to their duties like men, and had done all in their power to foster the interests of the road. And now when a road of 160 miles could be secured by amaigamation, he thought the opportunity should be taken alvantage of. The road was for the interest a reality of the road was for the interest of Humliton, it was a first-class cotton, and the country, it was a first-class cotton, and a happy future was in a refer for the city

the amalgamation took place.
Dr Billings wished to know if the road

as now paying expenser.
Mr Swarr said it was just about paying urrent expenses and the interest dubt, and it was the most economically man

Dr. Billings said if the road was doing a the to Hamilton, as alleged, the people amilton would give an additional \$100.

to aid it now. Lamilton would be a very extraordinary set of folks to give \$100,000 to a road like the H. & U. E. By when hi giving the saids a scoupt would secure a road 160 miles in

length.
Mr. George Tuggert said he was not Mr. Grongs Tuggers said he was not opposed to the H & N. W Ry, being built. He would like to see its built, four the policies wanted to know what guarantes will do given them for the luvertment of their money. He had no personal testing in his matter, and offer's believe they was a ring.

Other remarks were made on the sufficient like 'Hoore Bays's Rock, J. M. Williams, John Winer, J. C. Fields Joseph Lister and others.

Mr. James Warney submitted the following

Mr. lauva Warson aubmitted the follow-

ing motions of principle in parties. Moved by Mr. Jarms Wayson, swoonded by Mr. Russer Car was "That this meeting

The Letting a Teller

To the Editor of the September.

Sin,—Noticing in the Francisc last slight some remarks in report, he my views in reference to to the Hamilton and North Western Estimay, I south only lake notice of one point, vis. The question of Directors and the contract. Onl. McGlifferin's proposed teacher was founded on preclasely the same terms as the project funder, of the darkets frooter, and he most distinctly made it a condition that, he should nominate a Board of his own choice who would see to the carrying out of the contract. This I would have agreed to not the proposed contractor was a Taronate goutleman the mag an interest in the North Eistern Extension. Hellway, and I for one would never have agreed to no and I for one would never have agreed to accept a tender from such a source without to cept a tender from such a source without the Oily of Hamilton selecting a Board suttenty distinct fear. Cel. Modiverin and his friends. With the present Board the cess, is very distent, as both Directors and Contractors are manifon citisens, and have resided in the city for many years and interested in the city's progress, and if would far rather pay \$100,000 extra to Hamilton, man than tust our sutcreate to: those who were strangers and who might be heatile as well.

The Rallway Question.

To the Editor of the SPECTAROR Sin _I notice that a meeting not of rate payers generally, but of those opposed to the Hamilton and North Western Ballway, has een hold. The warmest friends of the soid canno

but admit that the lone of Mr. Barry's speed was remonable, and they must have seed the ta bim, and to any gentlemen, who honestly oppose the by law, possibly from the want of a full knowledge of the sacie, the fullest year able information overheld once to be given by the jamures of Mis Magill. T pass fore form comment, strictly of counds and form significant numbers, To it, William Modivarn, however, is little attention may be peld; and of this gentlement remarks must have been amusiky and interesting although, beyond Theoring an Siright into his own inconsistency, by no means fusion thy pure few tempers on the subject may no be another. ethous comment, as that of sound

Mi, Restront's but objected to proceed a construction of the strong of t

The R. W. W. wonth beind of 3 / 2 4 deal of the 2 not Barris as a serminus. But thirty miles beyond it at 1 ou come to the greak immerce are of Ontallo, where millions and fullfore for of feet at timper are being out start, about 10 feet at timper are being out start, about 10 feet at timper are being out start, about 10 feet at timper are being out start, about 10 feet and 11 feet and 11 feet at 11 feet and 11 feet at 11 fee Manifor and North Western Ball way would make Weithgton Square its to minus and dies upon trads there to the Great Western Ball way would make Weithgton Square its to minus and dies upon trads there to the Great Western would allow them the mac of the line between Hamilton and Weitington Square. This was preparence and yet the Trace had come out against the Company because they were opposing the Interests of the Great Western Lathway To finish their read independently to familiation they they was obliged to come here for help. From the county of Halton they, had approached \$45 000. Then users he county of Pest research for the mine of \$50,000 and out it down to \$30,000, which was nother get I research for their coming to Hamilton for additional aid. If was necessary that they about get thus additional \$100,000 to fill the this security make by the loss of first because between here and Groygetows.

y very proposed to give all their is an energy change of tendering for a ract. True, their condition only gard fracts. True, their condition only given intentions contractors, the road to Barr. This was to give the people beyond that to understand that the road would not go on inch further unless they helped it along. There, and ories of Thata all right. They had enough money to build the road from Wallington Square to the orgetown, when the necessities of the case would force those interested to help the achesm further in both directions. In case, that there should have misunderstanding contractors would be gueranted \$6,500 a mile as the work was done. He now read the classe that Mr. Tanchett robjected to.

Intended contractors will take notice that the Company are allowed to issue 5.5.

Intended contractors will take holice that the Company are allowed to issue 5.5. 000 per mile in honds, and if is the intended to the bonds in honds, and if is the intended of the Company themselves to sell the locad if found practicable to do so. Constructors will say how much shey will take means in lieu of bonds, if paid within six meatis after the completion of contracts. He said this was the initiate way of doing as they could not divide up their binds and give them placement to this mean and that make they would not be salesby, and could the said they are they would not be salesby, and could the said they are they would not be salesby, and could the intended in a contract. He defied Mr. Tucket it to point the attended to the salesby the sales of the salesby to the lates of the salesby to the classes come in the salesby the salesby the intended to point the salesby to the classes come in the salesby the salesby the intended to the classes come in the salesby processing the second of the control of the control

tangements with the connecting comparies the Great Westers, the Gread Frunk and the Canada Southern, which would have to abled them to sell their tonds. The la-

the Canada Southern, which would have to able? them to sell their conde. The last name to of these however, met with financial masterium in the commercial depression which prevailed and the other two had withdrawn from the arrangement. Since that time the Directors had endeavored to make separate arrangements with the Grand Trank and with the Canada Bouthern, but had falled to do so.

It was arranged at length that he and Mr. W.J. Copy should vist England, with is view to selling the bonds. They arrived here at the unfortunste in curve warn the London Thase thought is necessary to discissiff the scheme which Sir Hugh Allem was trying to first Le articles, together with the higher of Mr. Potter, and succeeded in throwing all Sanadian Railway be add into throwing all Sanadian Railway be add into throwing, and had presented but one of them. He had re not 19 C. Hispe that they aware making got if progress: with the shop when the infortunte discussion sprung up, but the feeling which that had sound up, but the feeling which that had sound up, but withdraw. Previous to their part to offer the bonds on the makest at all, and they withdraw. Previous to their departure for Railway they had they had made a provisiousle arrangement with Mr. Hickson, Manager of withdraw. Previous to their departure for England, they had made a provisional arrangement with Mr. Hickson, Manager of the Grand Trank, for smaling arrangements on their line for ten years, the consideration being the moral support of the Grand Trunk in the Resting of our bands; that arrangement would have been of great assistance to their mission, but uncertainted fit. Potter the President, rejused to agree to it, and would listen to no proposals other than a permunent arrangement. They had hell several interviews with Mr. Potter in reference to such an arrangement, and he had several interviews with Mr. Potter in reference to such an arrangement, and he had obtained a masseling of the Directors to consider it, but the frequent passes to the conclusion that in the present depressed state of trace they could not go they long to of giving a reput green to make them gives acquainted with a fit the information necessary, to the floating, or hands and to find out what was the strength and the weakness of their robuse. They and the weakness of their robeme. found that it was at any time extremely disfigure to get capitalists to take hold of a small scheme, and moreover that the expense of foating a small scheme would be a great as that for fuating a large one: They also found that the private capital invested in an autorprise must be something considerable in order 1) make the enterprise attractive. Bonuses and Governmust subsidies were not regarded as a autospot are past, for an opterprise. Capitalizis required that the private interest of the sche of the enterprise about be involved in it as well as their own, as a guarantee that is would be properly managed. These facts, would indicate to them what he jound to be the weakness of their scheme. Its steamth lay in the fact that the earnings of the read were regarded as yet; ratio row, and it appears weak as mall as scarcely to obtain belief. It was to remed the weak points, that he had properly as a same the scarce of the read were regarded as yet; ratio row, and it appears weak so small as scarcely to obtain belief. It was to remed the weak points, that he had properly to some the strength of a run and Norshwestern. He believed that cach scheme would strengther the other. We would bring to take the strengther the other. We would bring to take the strength of large scheme, with a fair amount of privats capital invested in it. With this amsignments as were satisfied that the bonds of the company could be floated as accurate time brightened, and find the interest of the City that it should not be interest of the city that it is should as it is an exception; the interest of the City that it is should as it is a surrough to be the same grant of the same grant of the limits and Lake frie would be reserved as an independent and competing time as was the original purpose, and it is well that it is not the limits and competing time as was the original purpose, and it is well that it is not the limits and competing time as was the original purpose, and it is well to on the limits and the fact the familion and Rorth Western would also become members of the same gran ficult to get capitalists to take hold of a amail scheme, and morrover that the expense of foating a small scheme would be as great maritationas aparenti itrational (A. Julia Maloney was consequently assessment in the bourker. Julia and hiery are relations, and a happy family they must be scarcely a week rolls around but with one or both of them appear in the Police Court with a quar petry charge. In fact they are firther almost, and without their shrill piping voices and quarrelassing targe the court would scarcely go on one work. This fine Mr. Bourke field appear on time, and the case was dismissed. Then here was weeping, walting and knashing of the Bourke's besteroid, but all in year, and Mary this time went unavenged. ys ... and Mary this time went unavenged... \... areon he said his name was, but John

kdowles it proved to be, was a meded with a sale skinned and clothes all covered with a d. It was only drunkenness though; the John was imperiment and impegualous us it happened he got \$5 00 or hity days Detective McPherson made a complain

against Dr. c. C. Trueman, charging him with practicing melicine without rolls legally registered. Case adjourned mail to morrow morning.

BATHER MITER.—Our correspondent whe Barams Miras.—Our correspondent, who reported the Canadian Order of Oddfellows exquesion, Monday last, in some way got things a little mixed. In the report Messas. Outner, Pitt, Passmore and Hall were spoken of as "rowdles who attempted the rates a fuse". This was all wrong, as the geatlemen named contributed the slugging of the country and descree the thanks of all who attended the excursion. The error containly rose through missnow-hander. One tainly rose through misapprehension. Our correspondent esting for the names of the parties who were obnoxious was understood to take for the same to be appeted to the good done who did the sir ging. Hence the error, which was suffrely unintentional.

Bonal Fig. sig.—The pic-nic given by Christ Church congregation at the Be yes avey was a year sujoyable affair. This was persent most pleasant of and dar spark in bouting, aringing and music, all spent is delignful the, and will look with pleasure for the next the given by the members of this chares.

Purcosa. Mr. Shaworose, secretary the Tours of earl Division Association, and the Deprecia Pricay evening mass.
