We understand it is the intuition Directors to build during the coming season, as soon as suitable lots can be found for the purpose, several first-class semi-detached brick houses, costing from \$3,000 to \$4,000 each, and also some smaller semi-detached brick cottages of about \$1,000 value, the monthly payments on which would only amount to \$9 or \$10.

Mr. James Balfour is the architect of the Company.

CHURCH Social .- On Monday evening we had the pleasure of being present at a social held at the residence of the Rev. Rural Dean

f the and d the

tated

of a INSTECTION OF SLING BRIDGE id to ind at ght be rprise me it a few W.S. HT 14 Feb 1877. nedral, TOLIN'T of AND UPENING TO 6-EV Rocig upon to that

diocese, after which the Rural Dean spoke of the importance of the laity assisting in the propagation of the gospel of Christ in the Diocese of Niagara and of the different dioceses of Canada, urging his people to aid the missionaries who were working for Christ's sala in this and other dioceses. The Rural Dean called upon Mr. F. Foote to pourtray the hardships of the missionaries of the Diocese of Woosene. Mr. Foote gave a very interesting description of the country, his remarks being to the point. After Mr. Foote followed the Rev. W. S. Speirs, who related a narrative of his missionary trip throughout Wellington a few weeks past, and also spoke at some length upon missionary life and labors in the Southern States. The life and labors in the Southern States. The Rev. the Rural Dean has, we think, hit upon a very good plan to interest his people.
There was no formality—all were at ease;
and although having been at a missionary
meeting the forward decad of male recognitions. meeting, the fear and dread of such meetings was done away. After Mr. Speirs concluded his remarks, "Onward, Christian Soldiers" was sung, then refreshments were served and social conversation became the order of the evening. A vote of thanks was passed and tendered to the Rev. Mr. Speirs for his address.

OPENING OF THE HOME FOR AGED WOMEN. A house-warming or special "welcome" entertainment will be given in the new building adjoining the Orphan Asylum, Wellington street, on Thursday evening next, at 7.30. His Worship the Mayor has kindly promised to open the meeting with a short address, after which music and other amusements will be provided in the different rooms. Refreshments on a liberal scale, for a very small charge, will be served throughout the evening, and a collection will be taken up, to which it is trusted a liberal response will be given, as the entire cost of admitting and supporting sixteen to twenty aged and indigent women falls on the already over-taxed funds of the Ladies' Benevolent Society. Any donations of furniture, clothing, groceries, Any donations of furniture, clothing, groceries, etc., will be gratefully received, as such is needed to make the Home a comfortable, habitable dwelling. The Committee thankfully acknowledge the following acceptable gifts: From Mrs. Winer, one hall and one table lamp; Mrs. McLaren, 6 work tables, 1 washhandstand; Mrs. Cartwright Thomas, 2 text duilts: Mrs. Kerr. 2 do and 1 framed 2 text quilts; Mrs. Kerr, 2 do and 1 framed illumination; Mr. James Walker, 1 box soap towards cleaning new building; Mr. Howles, 4 articles tinware for kitchen use; Mr. C. L. Thomas, use of piano for entertainment on Thursday evening, and Mr. Magee, cartage of same. Street cars will leave foot of Wellington street, going east and west, at half-past 10 o'clock.

THE BOY'S HOME. This institution is to THE BOY'S HOME.—This institution is to be opened on the let of March next, and inview of such our reporter yesterday paid a visit to the new and extensive building lately erected on Stinson street. The Home throughout presents a very healthy and comfortable appearance.—The work has been pushed forward, and by the 1st ut. the buildings (especially the interior) will re-

He said that at the the —we think the 28th inst.—he would read an essay on the vexed question, "Was St. Peter ever at Rome?"

H. & N. W. H. R.

Visit of the Directors of the Hond and the City Council to the Swing Bridge-

A Look at the New Filtering Basin. Yesterday afternoon, by special invitation of the Directors of the H. & N. W. Railway, His Worship the Mayor and the members of the Council, and several gentlemen, left the King street depot by special train at 2 o'clock, for the purpose of viewing the swing bridge over the canal, and also to see the progress made in the works at the new filtering basin. Among those present were Messrs. John Stuart, President H. & N. W. R., Messrs. Wm. Hendrie and John Proctor, Directors, Hon. Adam Hops, His Worship Major Kilvert, Aldermen Morgan, McPhie, UReilly, Leee, Browne, Stevenson, Kent, Wilson, Lee, Carscallen, Carruthers, Meakins and Grant, Mr. Haskins, City Enginner; Messrs, T. C. Kerr, M. Macpherson, F. McElderry and John Hendrie, Mr. McKeown, Chief Engineer of the Road; Mr. Anderson, Superintendent, and Mr. Wm. Rodgers, Locomotive Fireman. The run down to the filtering basin, where first stoppage was made, was a ling one and all on board seemed highly pleased with the state of the track. The party disembarked to take a look at the basin, and seemed astonished at the magnitude of the work. The basin which is 1,011 feet long, is nearly completed, and when this and the alterations which are in progress on the old busin are done, the of Hamilton will have perhaps the best supply of water in the world. It is the intention to enlarge the old basin to a length of 1,584 feet, making the total length for the foot with a depth of 2,628 and a width of over 100 feet. It was expected to have been completed last fall, but owing to various circumstances the work has been delayed. However, everything looks favorable now for an early completion, and Mr. Rich, the contractor, appears anxious to do his best. After viewing the basin the party re-embarked and proceeded to swing bridge, which was crossed, when another disembarkation took place, and a thorough inspection of the bridge was made. All were astonished at the magnitude of the work and the appearance of the bridge, which, by the way, is the third largest in the world, and has been fully described in these columns. The light appearance of the structure, with its undoubted strength, surprised everyone, and as the train was run backwards and forwards over it without the slighest vibration, all were loud in its praise. Owing to the engine which is to swing the bridge being not quite completed, it was not Bwung yesterday, for the Directors of the II. & N. W. R. and the Hamilton Tool Co. are so lesirous of having everything perfect that they are guarding against a difficulty experienced in the swinging of the International Bridge, viz., the difficulty of stopping the swing at the exact moment required, in a gale of wind, the span of the International having been known to have made two re-volutions before it could be stopped. The engine, however, which will work this bridge has been fitted so as to perfectly check it and hold it under control, and in fact nothing has been left undone by the Company to ensure the safety of passengers, and the smoot impossibility of any damage to the shipping interests. On the return trip a visit was paid to the engine house of the water works, where everything was found in apple pie After a very pleasant afternoon the day being a lovely one—the city was reached about 5 o'clock. The scenery along the road, about 5 o'clock. The scenery along the road, with the different glimpses of the bay on one side, the mountain on the other, and the fun along the beach with the wide expanse of Lake Ontario with its rolling waters and cool breezes will make the trip from Hamilton to the Beach in summer one of the prettiest and most enjoyable in Canada, and no doubt during the hot season the wearied worker will only be too happy to avail himself of its advantages. The first train on the H. & N. W. R. left Georgetown this morning at 9 and ran on excellent time, arriving in the city at 12.10. The train leaves again at 4 o'clock, and is timed to arrive at Georgetown at 7 p.m. We congratulate the Directors of the H. & N. W.

R. on the opening of the road.

have preached to as wakeful a congregation as was assembled in that Church last Sunday evening; they seemed fully alive to everything that was said, and therefore, hoped to see every person as wakeful tonight. Relating some very amusing anecnight. Relating some very antusing according to the sons of the Emerald Isle, he was sure if there was a good sprinkling of them there this evening they were bound to keep awake. He next spoke of the encouragement of Mis-They sow the seed, the seed of sionaries. paries. They sow the seed, shall shake the incorruptible soul, which shall shake the earth wherever it will spring up. The Tree of the Gospel seed shall shake the whole world. He went on to relate the history of the church from Henry VIII. to the present day, dwelling on the absurdaties of Romish customs in the early ages and, in that the third weapt time. He said spiritual fact, to this present time. He said spiritual life is what we want; wealth, culture or pro-fession cannot avail without we have the Divine Spirit. The Rev. speaker brought his address to a close by reminding his hearers that the Methodist Church has a great deal to do in sowing the seed of this spiritual life, and calling on them for their liberality and support in the great and good cause.

Rev. L. Gaetz, of Montreal, was next in-

troduced. He excused himself on account of having a cold (which indeed, he appears to suffer very much from) by saying he could not speak as much as he would wish on that ground. He was glad he was in Hamilton and at the Missionary meeting last night. Introducing the subject of the great Christian mission as a living cause, he said he would like to be instrumental in bringing some oung men to study for the missions. It is not only support is wanted, it is help. to unfold the great work of God. People who professed to study the Bible ought to think they will have to meet Christ one day. Every Christian ought to make a wise disposal of what good has been given nim. The developing of our active forces is what is wanted in this grand work. "He that shall not work shall not eat." Then we want muscle-n gift as well as brain; money as a muscie—a girt as well as brain; money as a relative to learning; but we must use the resources God has given us, viz., activity, which is illustrated in the following anecdote: "A ship was cast shore on a reef of rocks. The fishermen, seeing the danger to which the crew were exposed of being swept away, did not stop to ask unnecessary questions regarding their nationalities, but intions regarding their nationalities, but instantly manned the boat, rowed to the wreck, and saved the crew." There was brain and muscle. That is the reason we get up these missionary meetings. We want activity. He impressed upon his young friends the necessity of withholding their little indulgences and using a little more activity for the feause of Christ. cause of Christ.

After the speeches came the collection, and during the time it was being taken up the choir gave a musical selection. Votes of thanks were tendered to the clergy who had preached on Sunday and addressed the meeting; also to the choir and chairman; after which the audience sang "Hold the Fort," and then dispersed.

CHRIST CHURCH MISSION. - We are informed that a mission in connection with the Cathedral will, on Sunday afternoon next, be dral will, on Sunday afternoon next, be opened in the chapel on the corner of Simcoe street east and Ferguson Avenue—that is, between the Bay and the Great Western Railway. It is expected that the Lord Bishop, the Very Rev. the Dean and the Rev. W. S. Speirs will take part in the services. The mission will be carried on more particularly by Mr. Speirs, who purposes holding larly by Mr. Speirs, who purposes holding two services each week; that is, one on Sunday afternoon at 3 p.m. and another on Thursday night at 8 p.m.. We trust that this mission will receive the hearty support of the members of the Church of England in that part of the city.

SERVED HIM RIGHT .- Mr. (feorge Bridge wood was charged before the police magistrate with keeping a nuisance. He did not appear Lyidence was taken which went to show tha he kept the carcases of horses on his pre mises and that flesh was seen in his plygery One witness saw horses' hoofs in the pen All the witnesses stated that the stench almost unbearable. The magistrate said the these nuisances must be put down, and fine defendant \$30 and costs.

The Catholic Literary Association will giv The Catholic Literary Robert Hall, corne a public entertainment in their Hall, corne a public entertainment in their Mall, corne count of the very landable object for which it is given. From the well-known ability of Mr. Mitchell as a lecturer, and especially on this particular subject, we have no heartation in saying it will be a great treat. Besides the lecture, there will be a short but most excellent programme of sacred, music rendered (bich we give below), commencing at half. loven o'clock sharp.

dog. Unfortunately the dog was loose in the yard and immediately flew at the boy biting him in both legs; one being a bad bite, in fact so severe that the sufferer was scarcely able to walk. He was taken to Dr. White's surgery and his wounds attended to and there is no fear of any serious result. It is only fair to Mr. Finch to say that no one regrets the circumstance more than he did, and he at once offered to destroy the dog, but as Mr. Johnson is not one of those fanatics who believe that unless a dog is killed all sorts of will result, he would not allow it.

Rev. W. F. CRAFTS.—This distinguised Sabbath School worker, so well and favorably known as the organizer and conductor of the late successful Sunday School Parliament held last summer on one of the "Thousand Islands," will visit Hamilton, in the interest of the cause to which he has devoted his life, on Friday next, 16th inst.; and in order that the greatest number possible may have the opportunity of hearing him, the Centenary Church has been kindly placed at the disposal of the Sabbath School Teachers' Association for the occasion. It is seldom that the citizens of Hamilton have the privilege of listening to such a man as Mr. Crafts, who is the compeer of Vincent and Jacobs in the Sabbath School cause. Further particulars will be given ov Wednesday.

"OLD ENGLAND AND THE ENGLISHMAN."-This is the attractive subject of the lecture to be given in Weeley Church to morrow even-ing by the Rev. H. Johnston. The lecturer will no doubt give a vivid sketch of the old old country, its cities and its landscapes, and portray the characteristic traits of the true Englishman. The concert will furnish an attractive feature in the entertainment, as the pieces will be in keeping with the subject. We hope to be able to furnish the programme to our readers to morrow. No admission fee is charged, but a collection on behalf of the 'adies' Aid Society will be made. We predict a very pleasant and profitable entertain.

ACCIDENT .- On Saturday evening last, soon after ten o'clock, as a lady named Mrs. Milne, of Catheart street, was walking along King street east, between Cathcart and Wellington streets, she slipped and fell. The lady was assisted into Mr. Rock's drug store, where she drank a glass of wine: A cutter being outside, the gentleman

do anything with this d also said, "You have no occasion or here;" I went down stairs, and shortly after my brother came in and went up stairs and assisted her; Mrs. Gill came then and afterwards Dr. Walker, who attended to the mother and child; Mrs. Gill washed and dressed the baby; think the deceased infant was the healthiest baby I have seen for many a day; am in the habit of seeing many newly-born infants; Mrs. (iii took Mrs. Gallagher in the bed; I did not see the baby again alive; early this afternoon I went into Mr. Gallagher's house and the baby

HT 12 MAR 1877 BRONTE CREEK PRIDGE
HOLE TRUSS CONTRACTORS PEE ALBOV 1877 ABAM

said "It is time enough yet;" she said to me some months ago that she would never be tied down with any more children, and that she would not be tied down with this one only she had got fooled; she told me that after she got over her trouble that she was going to Hamilton to keep a " fast' house; this I understood to mean a house of ill-fame;" she told me that she intended to be confined alone, and that she would have everything ready (as to the baby's clothes and other particulars) so that there would be no suspicion or detection; she said that she intended that the child should not live, and would have all these preparations ready so that there should be no suspicions.

To the Jury-Mrs. Gallagher did not call any one when she was in labor; I thought when I saw the blocd in the nostrils and the marks about the mouth that the child had been put to death, and I still think so.

The inquest , was adjourned until eight o'clock to morrow at the same place. Mrs. Gallagher was arrested on a Coroner's warrant yesterday.

H. & N. W. R. R.—The contract for building the bridges between Georgetown and Barrie on the H. & N. W. R. R. is let to Mr. D. McDermid, contractor, of this city. With the exception of two smaller ones, Mr. Mc-Dermid built all the wooden bridges on this road between Hamilton and Georgetown, and he has given the greatest amount of satisfaction both in regard to time and workmanship. The bridge at St. Ann's is second to no Howe truss bridge in Canada; it is certainly a credit to the designer, T. McKeown., Esq., Chief Engineer, as also to the contractor above mentioned. Mr. J. D. McDonald, of Thorold, has the grading from Georgetown to Barrie; Mr. McDonald is well known as a thorough railway man, and the Company must certainly mean business when they entrust the work to such energetic railway men as Messrs. McDermid and McDenald.

CURLING .- On Saturday last a curling match was played at the covered rinks between two rinks of the Hamilton Mechanics' and the Milton clubs. The following is the score:

RINK 1. - MECHANICS'.

Frager. Or Kerner, J. labister. J. McKindsey. A. Dingwall,
H. Robinson, skip-22.
W. Panton, skip-10. RINK 2.

Bellie & Brit . . Little hale I blick Taylor, Duryea, James, Ormiston and others have been excured and enjoyed on ethillar intition of Attangements motted the Key. David Michell, of the Central Presbyterian Church, Toronto, to occupy the pulpit yesterday, which he did with marked ability and great satisfaction to the congregation ascombled at each diet of worship, A mere outline of the sermons would not do them justice. Suffice it to say that Mr. Mitchell took for his text in the morning Acts, 20th chap,, and last clause of the 35th veree, "It is more blessed to give than to receive, in the evening, Mark, 8th chap,, and 36th and 37th verses, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" "Or what shall a man give in exchange for his soul."

The sermons were powerful and eloquent, abounding in choice illustrations and passages of deep pathos; the applications were practical, altogether stamping Mr. Mitchell as a

preacher of the first rank.

In the alternoon the rev. gentleman addressed the children of the Central and the Pearl street Sabbath Schools in the church, to the great delight of the little ones, who sang a number of hymns during the service. The state of the weather interfered with the attendance of the children somewhat, and no doubt detained some from the other services also; but, considering the fact very short notice was given of these services, and that the congregation has so long been without a pastor, the attendance was very good. It was announced only the Sabbath before that a special collection would be asked for, which amounted to over \$600, to be yet added to by those who overlooked it but desired to contribute, and also by the collection this evening.

To night the 19th anniversary of the opening of the present building will be held. Chair to be taken at 7.30, when the Rev. D. Mitchell will address the meeting. Dr. James, of Knox Church, will also be present and give an address. Free tickets of admission may be obtained from any of the

managers. -

Home for Aged Women.—The Committee of Management most thankfully acknowledge the following donations to the Home for Aged Women: Mr. Gurney, cooking stove and furnishings; Mr. Dennis Moore, articles of tinware; Mr. A. Hope, articles of hardware; Mr. Black, spoons; Messrs. Kennedy & McElderry, crockery; a friend, crockery; Mr. Fleming, crockery; Mr. Kent, crockery; three young ladies, 6 bureaus; Mr. Mitchell, laundry furnishings; Mr. McIntosh, baskets; Mr. Winer, medicines; Messrs. Buntin & Gillies, stationery; Mr. Eastwood, station ery; Messrs. Duncan & Stuart, stationery; Messrs, Lancefield, British Workman; Messrs. Stuart & McPherson, large parcel of groceries; Mrs. Sanford, piece of factory cotton and great gross machine thread; Mrs. J. I. Mackenzie, piece of tlannel; Mr. Moodie, Mr. Leask, Mrs. Maclean, yarn; Mr. A. Murray, Messrs. Barnard, Mr. Campbell, dry goods; Mr. , Meakins, brushes; Hamilton Bible Society, bibles and testaments; Messrs. Furner & Livingstone, Mrs. Stewart, cap and bonnet materials; Mr. Fearman, bacon; Mr. Lee, fish; Mr. Harrison, beef; Mr. Ecclestene, James street, cake; Mr. Wanzer, sewing machine.

HAMILTON SABBATH SCHOOL TEACHERS' AS-SOCIATION .- Rev. Wm. Herridge, pastor of the Gere street Church, will introduce the important subject of "The best method of securing the attention of troublesome Sabbath school children," at the monthly meeting to be held this evening in the Y. M. C. A.

by the pilgrims of the Province of Quebec, who left yesterday, the 21st, for Rome. The box on presentation will contain \$20,-000 gold as a present on the 50th anniversary of the Episcopate of his Holiness.

Church. Announcement.—Rev. Mr. Williams, pastor of the Centenary Church Hamilton, gave notice on Sunday that hereafter no announcements would be read from his pulpit except such as pertained to meetings during the week in connection with his own Church. This is a move in the right direction, and should be followed by similar action in all the churches throughout the Country.

H. & N. W. R.—We learn, says the Hamilton Times, that Mr. J. G. Eddington of Woodstock, contractar, who has taken Section No. 13 on the H. & N. W. Railway, between Georgetown and Barrie, has, with his accustomed energy, perfected arrangements to commence work on Monday, near the village of Claude, in the County of Peel. Work on other sections will be commenced at various points early in the week.

FREE PAPERS—A CUT DIRECT.—The Belleville Intelligencer gives the Toronto Y. M. C. A. a recuke for asking the publishers to send a copy of that paper to their reading-room free. It says "An Association that is able to erect a \$20,000 building—that numbers within its ranks so many of the wealthy and solid men of Toronto, and is in such an apparently prosperous condition—aurly ought to be able to pay for their papers."

BARLEY. - The Coalt Reporter of late date says Barley is getting to be quite a drug on the market, the highest price obtained for the best sample during the past week having been 55 cents. We hear of several parties who took barley to Paris on Monday last, but had to return home with it unsold, barley being offered from the cars there at a cent per 10—or my 45 cents per bushel. It is likely that what is in the hands of the farmers now will be used for feed, rather then be sold at pre-

incident occurred at the recent of which fully illustrates the silly presentetained by some young ladies to an intelligent class of the communechanics. One of the prejudiced tures was pironetting with a divolver officer and deriving we

BOARD OF ALDERMEN, Last night-the forteightly meeting of the Board of Alderman was held, the Mayor prestding. Numerous patitions, on a great variety of subjects, were presented, and re-ferred to the appropriate Committees.

HAMILTON AND ROBTH-WESTERN RAILWAY

The Clerk read a report from Mr. W. Hat-hins, City Rogineer, on the condition of the Hamilton and North-western Rallway between the city and Georgetown. In his report Mr. Haskins thus describes the result of his examination of the read:—

of his examination of the road:

"In compliance with a resolution of the City Council conveyed to me by you, I went over the Hamilton and North-western Railway on a tour of inspection, and found the part of the road between Surlington Bay and Georgebown well and carrifully located, the line being generally straight, running through clearings, and with grades include two heavy.

"A large portion of the road-bed is built up from the sides, where the embaskments average two to five feet in height above the general level, admitted to be the best earl of road for a northern country. The cuttings are few and light, with but one exception, where I observed a cutting about fifteen to twenty feet deep in a curve.

"The bridges and culvers are substantial

"The bridges and outvers are substantial wooden structures of the usual kied constructed in new rallways in this Province, except the Burlington Bay Canal bridge which, you are aware, is acknowledged to be a superior from structure, requiring no comment from me.

"The road-bed for about reven miles northward from Burlington Bay is partially billasted with sand taken from the Beach, which are were a good puppes, but is inferior to coarse gravel,

to contro graves,

"The portion of the road between this
of y and Lake Ontario is so well known, it is,
perhaps unnecessary for me to speak of it.
However, I may say it is not so well loaded
as the part of the line beyind or north of the

" On the whole, the track is rough at any unfilihed road not ballavted necessarily unsat be, but it is substantial and firm, and there are but few, if any, heavy embant-ments to fall away when the frost thaws

ont.

"I The traffic at present is, I am informed, one train each way daily, running at the rate of about twelve miles per hour, which I believe the Company will be able to keep up, without intermission, until the road is ballarted and completed, when it will not rank second to any in this Province.

of I am therefore of opinion that the Com-pany are entitled to my certificate, in accor-cance with the terms of By-law No. 55,

"I am, dear Blu,

" Yours truly,

" WILLIAM HASKIES, "City Engineer."

HAMILTON AND NORTH-WESTERN RAILWAY ENGINEER'S OFFICE,

" HAMILTON, 20th Feb., 1877.

order of the day.

HOME RULE FOR IRELAND.

O'CONNOR POWER'S LETTURE AT THE ROYAL OPERA HOUSE,

A fair-sized audience assembled in the Royal Opera House last night to hear Mr. John O

Mayo, L Rule fo pocupled lecturer drere.

Mr. P appland aemarks Rale for ubicot contine either f The sa

Globe 28 Mer. 1877 the Gr who '

strike the blow." The lecturer glanced at the history of Ireland from the earliest times up to the year 1800, when Ireland lost her freedom of self governwhen Ireland lost her freedom of self government granted her in 1782, through the encreachments of the British Privy Council. It was this gave rise to the troubles which colminated in the robellion of 1793. In this rebellion the Irish people sought to achieve perfectly legitimate ends. The first of these was the reforming of an Irish Parliament, and the second was Catholio Emandigation. This rebellion was all but and onesful, and it dipation. This rebillion was all but anocensful, and it was owing to the
fact that cortain kid-gloved patriots
were fund to be with the Eiglish
when the push came, that the advantages
were last. In these troubles, Professants as were took. In these troubles, processes well as Catholios took an active part; and he was sure that the Democratic principles which actuated the people of Ireland then are strong in the breasts of the Irish people of the present day. The lacturer repelled the accuration of disorder which had been brought against his countrymen as a protext for depriving them of their Parliament. Irishmen had proved themselves loyal and brave, as could be jaustained by the fact that they have scorified their lives on many a well fought field. (Cheera.) Mr. Pitt and Lord Cestleresgh in their arguments in favour of the union had said that it was necessary for two reasons. (1) to incurs brought against his countrymen as a pretext ments in favour of the union had said that it was necessary for two reasons. (1) to insure the interests of Ireland; and (2) to uphold the integrity of the British Empire. The latter gentlemen had promised great things for Ireland as a result of the union, and hal said that the Emerald I.1: of the ros would fee with milk and homey. Be areasy I We gentimes had promised great things for Ireland as a result of the union, and hal said that the Emerald 1-1: of the sea would flow with mith and homey. Barney! We in 1877 are not to be blinded by soft specches, for the passing of seventy-seven years has enabled us to form an estimate of these promises by the sure train of experience. The illustricus men who have stamped their mames in Irith history will not be found in the Imperial records, but on the records of State trials in Dublin Castle, and on the books of convict ships. There is no land so abandoned or remote that you will not find on its abores members of the crushed cut Irish race, in search of that freedom which they fall to find in their native land. (Oners!) The Hon. John Bright had, the lecturer said, made reference to the effect that the existing relations between Great Britain and Ireland have on the Irish people on foreign abores, and the itjury that accruss to Britain by reason of this. An instance of this had been sen lately in regard to the Eastern Question, the ambessed of from England having been obliged to return. Before England can hope to wield the same influence are two good grounds on which Ireland has a right to demand "Home Rale," first, on the ground that Irishmen ought to their stakers. So long, too, as Ireland contributes soldlers to the Empire. They cannot be content seven with a Parliament of the Empire, she has a right to have a vice in the Government of the Empire, she has a right to have a vice in the Government of the Empire, she has a right to have a vice in the Government are in favence of these matters of Oanada, which is based upon, and represents the prevailing public opinion of the nation. At present sixty out of the one handred Irish members in the Imperial Parliament are in favence of Home Rule, and he (the lecture) did not see why a majority could not regain for Ireland in 1877 the one handred Itah members in the Imperiat Parliament are in faveur of Hems Ruis, and he (the losturer) did not see why a majority could not regain for Ireland in 1877 the privileges which a majority lost for her in 1860. The lecturer, after reviewing britisy the polley of Lord Clarendon, and the smitch

The chief engineer of the Road has been surveying the roadbed of the North Simcoe

We understand that this Company has ordered two new engines, which will be completed in a few days, when the work of ballasting will be commenced on this end of the

It is a matter of surprise to many that no accidents have occurred on the above line since the thaw commenced, it being a rare thing for regular trains to be kept on a new unballasted road through the first apring. The fact of the trains running so regularly and safely is due to the excellent management of Mr. Garland, Track Superintendent, and the Company may congratulate themselves on having such a careful and competent official in their employ.

FALL WHEAT.—The farmers in this neighborhood report that what fall wheat has been sown is looking well, and the prospects are at present good. In spots it looks a little brown, but a few weeks of this weather will perform a wonderful transformation, and it will soon look fresh, green and vigorous. It is to be hoped that when harvest comes the barns of the husbandmen may be filled to overflowing by the abundant yield of 1877.-Guelph Herald.

> the same remedy, and so one influences another. Thus the work moves on. Last night the meeting was addressed by the Rev. E. Haskell, Meesrs. Wright, Morris, Wilson, and William Hurd. At the close upwards of 50 signed the pledge. Meeting this evening ia the Primitive Methodist Church, Hughson street. It has also been suggested to extorium, when meetings might be held, thus reaching large classes who will not come to the churches.

NEW LOCOMOTIVE-HOME MANUFACTURES.-The one o'clock train leaving the H. & N. W. R. R. depot to-day was drawn by a new locomotive, made by the Canadian Engine and Machinery Co., of Kingston, Out. Mr. Regers, the Mechanical Superintendent, says that the engine has taken equal to seventeen cars up the mountain, which is remarkably. good work for an engine of its class. This locomotive is one of three new engines made by this Company for the H. & N. W. R. R., the other two of which will be here in a few days. We understand that Mr. Nuttall, the Superintendent of the Engine Company, is taking great pains to select the best mechanical skill available. We are pleased to learn that the Railway Company is patronising home manufactures, which, doubtless, are as good as any of their kind on the continent. Mr. Jones, at one time foreman on the G. W. R., has accompanied the locomotive to Hamilton.

Auction Sale of City Property.-We beg to remind our readers of the sale to morrow noon, at Burrows' auction rooms, of houses, brick and frame, situate on the southeas. corner of Main and Cherry streets; and also of the house and shop on the southwest cor ner of James and Strachan streets, as already advertised in our columns. This is a good opportunity for investors in real estate.

BALDNESS CURED. We respectfully draw the attention of our reader to the advertisement in another column of Cummins' Specific for the hair. Mr. E. L. Shattuck, of Briscoo & Shattuck, Toronto, agenty for Ontario, will be at the St. Nicholas Hotel for a few days, where he will offer a remedy for baldness to the public. He guarantees a cure. The advertisement should be read. The firm and the patentee have a large number of unquestionable references.

STEALING PORK .- The other night the .*storehouse of Mr. Emerson Mann, Lot 30, 4th Con., Ancaster, was visited by thieves, who carried off about \$40 worth of pork. And a short time ago the premises of Mr. James in ___ Ancaster, were

lways welcome, and it was never resher than hast evening. Miss Barr however, the well merited encore. next piece, Mr. Greenfield came ed and that Mr. Danett, instead of er," would sing an Irish song. t was well received, and sand a g. Miss Nolan, of Brantford, a ms already won laurels in Hamil-"R bert Tol que J'aime." M.ss ensed her popularity in this city by her rendition of that charm-Mrs. Caldwell's appearance was

the signal for the most enthusiastic applicase, and, though the talented soprano was sufferlog from a cold, her rendition of "Che Gioja," (Valzer) by Mattei, was simply superb. Her votco filled the hall with the beautiful melody, and when the upper F was struck with perfect precision the enthusiasm of the audience reached the climax. At the close of the song the applause was more than enthusiantic. A beautiful lasket of flowers was presented at the conclusion to the fair cantalrice by a mombig of one of the learned professions, the gir, we believe, of an ardent admirer of the lady. The basket, which was most tastefally mranged, was the work of Mr. Towns send, the wed a law florist at the corner of Park and Vin tets.

This terminant d the first part, and gave the nullence breathing time to recover from the swiets they had been given, before they began to enjoy what was in riere for them.

The second part opened with a selection by the Maennerchor, Society, entitled "Die Deutsche Eisenbahn," which was well resedered. Mrs. Knowles had recovered from her nervousness in the second part, and rendered "Only a little Flower" very nicely.

The trio "I Navigante," by Mrs. Keltie and the Tandy Brothers, was admirable, the voices blending beautifully. "Fear me not, Butterily," by Miss Ortton, was tastefully given, and elicited applause. Bro. A. H. Wingfield in his recitation of "Down Brakes, an original composition, drew forther hearty encore, to which he responded with a Scoten song. The duct "Unly Thee," by Miss Barr and Mr. R. Tandy, was most charmingly rendered, though at times the Entleman's voice rather drowned the lary which was to be regretted. Miss Nolan sang Esmeralda" very well. Mr. William Tandy gave the "Sailor's Return" in good style, and Mrs. Keltie and Miss Barr were simply perfect in their duet of "Polka Friendship," Mr. Dunett sang "The Diver" in the second part in place of the first. He was applauded. The arrangers of the programme had evidently gone on the principle of keeping the good wine till the end, for "Lo, Hear the Gentle Lark!" sung by Mrs. Caldwell with a flute obligato accompaniment by Mr. W. O. Mehl, of Urie, was one of those performances that are heard but a few times in a lifetime. The trilling of the singer was wonderful, and her accuracy and perfect harmony with the flute was so wonderful that it was almost impossible to distinguish the voice from the instrument. Mrs. Caldwell has always distinguished herself, but last night she proved herself to be one of the best vocalists that have appeared in Hamilton. Mrs. Caldwell declined the unanimous encore, and, instead, accompanied Mr. W. O. Mobil on the piano in a flute solo by that

TURCH TEMPERANCE Someeting, for the season. ill be held in the School y evening next at 7:30. comises to be more than ig, as a large and inviting

programme is being prepared. A small a lumination fee will be charged at the door.

APPOINTMENTS. — Two very popular young clergymen have left the palace here and taken up stations in parishes requiring active laborers - Rev. Fathers Hogan and Walsh, the former of whom has gone to Emily and the latter to Kemptville, Oat. Both are to be coagratulated, and good wishes are expressed for the success of both.

PROGRESSING. - The trackmen have laid the track of the Railway to near Division Street -pretty good progress for one week. Precaution is being taken to leave the street in good condition, the grooves being filled up and rolled over with a heavy roller. The work is attracting a great deal of attention. To-morrow will be a great day of inspection.

Four Hard Cases. - Kingston has got rid of four hard citizens-the four who were tried for the murder of Matthew Garratt at Sharbot Lake. It seems they got over to Cape Vincent by the steamer "Maud," and tramped it from the Cape to Watertown. They say they have enough of the Dominion, and an exchange very trushfully remarks that the Domin . ion has enough of them. Kingston at any rate will be a fortunate place if they give it a wide birth in future.

THE PHILBARMONICS.—There was meeting of the Philharmonte Society last evening in St. George's Hall. The attendance was good, several new members being added. During the evening the trio and chorus "Hark Apollo," with orchestral accompanied, was rendered with fine effect. The Society has good prospects before it, and should be succouraged by all musically inclined. People should not wait to see how it seds, but should join at once and help to make it a success.

NEW LOCOMOTIVE-HOME MANUFACTOR TURE. - The Hamilton Times of yesterday said: The one o'clock train leaving the H. & N.W. RR. depot to day was drawn by a new locomotive, made by the Canadian Engine and Machinery Co., of Kingsion, Ont. The Mechanical Superintendent says that the engine has taken equal to seventeen cars up the mountain, which is remarkably good work for an engine of its class. This locomotive is one of three new engines made by this Company for the H & N. W. R.R., the other two of which will be here in a few days. Mr. Nottall, the Superintendent

oreast than on the end of had to e movement has some elethus commend it strongly. so m organized, not upon a political, but upon a moral basis. It bands men together in good works for one another. It has been foit as an upward tendency in komes, in business, and throughout most depart. ments of life. It has aimed to change public opinion by changing the wills, the habits of those who help to make it. All those efforts are commendable and permanent, and the movement has so far been marked by such good sense that it is likely to go through our commonwealth and work great results. If it can go on as it has begun, keep clear of political iufluence, touch the hidden springs of society, work where every reform has is power, in people's wills and hearts, it will be what many have longed to see and will win to itself, as substantial held, all the best elements in social life.

town Times has an instructing article descriptive of the Westminster Park (Pre-byterian), which has been laid on Wells' Island. It is owned by an association, the object of which is the purchase, laying out, dividing and improving lands on the east end of the Island in the St. Lawrence River, directly opposite and within half a mile of Alexandria Bay-The trustees have the refusal for a limit ed time of five hundred acres of land. This ground has over four miles of water front, and is easy of access from both sides of the river. Two hundred acres of the land are heavily timbered, and the remainder is divided into hill, valley and other sices suitable for arranging one of the finest river parks on the St. Lawrence river. It is proposed to make Westminster Park a popular place of resort for summer meetings of a religious character. Sunday school conventions, social picnics, etc., and permanent summer residences like those at the Thousand Island Park. A number of permanent buildings will be erected by the Association during the coming season, in time for the naun excursion parties and other viel-

VERY Low. - The senerable and beloved pastor of Trinity Church, Cobourg, has been in a low state of health for some time, and his sands of life are fast obbing out. This having become known to the Bishop and priests of the diocese, he has not wanted for all the comforts that can be afforded him in his last days. The Right Rev. Dr. O'Brien, Bishop of this diocese, accompanied by Very Rev. James J. Quink, pastor of the Hastings Mission, were there on Tuesday and Wednesday on a visit of consulation to Father Timlin. Several other clergymen have visited him also. Two Sisters of the House of Providence, Kingston, are now in attendance upon him.

THE TANDYS .- On Wednesday evening the Tandys appeared at the Oddfellows' concert. And this is what is said of them by the Hamilton Speciator :

by the Hamilton operator:

"I'l heard a voice," a duet by Glover,
was then rendered by the Tandy Brothera. They were encored, and gave
'Albion on thy Fertile Plaina." On no
eccasion have we observed these princes
of song in better voice. The Oddfellows
of Hamilton have certainly reason to feel proud of opening up a connection with these talented gentlemen, and we may freely state that the quarrette of anniverfreely state that the quaratite of anniveraries which the Metart Tandy have taken part in have been amongst the most
pleasant at an in their lives. The other
pleases sung by the Tandys were, 'The
D-ash of Neison,' by Mr. R. Tandy, and
The Sallor's Return,' by Mr. Wm. Tandy, as well as a trio in I Navigante, with
Mrs. Kellis, a duest 'Ouly Thee,' by
Miss Barr and Mr. R. Tandy, and a
quartette, 'Oh, what can be the meanting T from the opens of Marthe, by the
Messer, Tandy, Miss Barr and Mr. Dr., the open of Marche by the
