

The Advertiser, considering itself entitled to place a candidate in as either The Telegraph or The Spectator, an able and eloquent thoroughly conversant with the politics of the country, but a little excessively, perhaps, for a constituent desirous to reform as Central... a disqualification which his personality, and his zealous advocacy of the Grey & Bruce Railway, most important question before a body of the electors, may possibly remove. But we are sorry that the Advertiser's committee should be happy to have an ally, as one of the "free and independent" of the division, to poll for the quill. Among the others in connection with the candidate riding are Dr. Howitt of and Mr. J. C. Ross of Elora. The gentlemen are doubtless eligible but it is quite possible that the obnoxious to the kindly counsels of the Advertiser outside the riding raise a candidate from among those capable of representing their constituents in the General Legislature; but even to speculate, when adroitly manage the ropes, and when a may refuse the most plausible ones. We must therefore be content and learn.

**GREY & BRUCE RAILWAY.** Municipal aid will secure the completion of the Toronto, Grey & Bruce, its early completion may be certain. Few projects have been so advocated with greater ability, and fewer still have been so liberally supported by the public. The largest capitalists of Ontario, it soon received the consent of the country, and though for a while enterprises delayed its progress, the ultimate result was never. All along it had the support of the principal municipalities on the line of route, and as soon as the route was perfected and submitted to the ratepayers, it was almost unanimously endorsed by the liberal bonuses. Albion, Sound, Sydenham, Holland and Forest, some time ago voted large sums in aid of the road, and on Friday, 1st, and Monday, the municipalities of Orangeville, Amaranth, and Caledon have granted \$15,000, \$30,000, and \$50,000 in bonds in aid of the undertaking. Toronto, we believe, intends to supplement these grants with a \$250,000, which will be further aided by \$25,000 from the East Garamith, \$25,000 from Butner, and \$50,000 from the Municipality of Caledon. When these sums have been and the debentures for their payment deposited with the Trustees appointed to receive them in Toronto, we need that arrangements for the line immediately be made, and construction of the road out in sections along the whole line Toronto to Arthur. When that comes, and in the opinion of the terms of the railway it is not far future—a new era of social and prosperity will have dawned upon a section of the country.

**THE NEW DOMINION MONTHLY.** October and November. One Dollar Annually. Montreal: John D. Sullivan. These first two numbers of the second year of this Canadian enterprising publication contain the usual proportion of original and selected matter of a high order of excellence. This combination gives as peculiarly suitable for the monthly Magazine of British America, affording as it does a field for home and foreign articles, without excluding a selection of the best articles that are appearing in the periodical press of Britain and the United States. The prospectus states the circulation during the first year up to nearly 8,000, an almost unprecedented success in so short a time, we know not what proportion of the subscribers have renewed for the second year, and that not a few new ones have been added to the list; but as they are apt to delay remitting, and the price is (necessarily at the low price of dollars per annum) strictly cash in advance, a sufficient supply of these two numbers has, it is announced, been printed to fill all orders.

...the receipt of an immense stock of fall and winter dry goods, ready-made clothing, groceries, boots and shoes, &c., which he offers at extremely low prices to intending purchasers. Give him a call.

**A SABBATH SCHOOL ANNIVERSARY** was held in the Primitive Methodist Church on First Street, on Monday evening last. The children seemed particularly happy on the occasion, and recited and sang some pieces with very pleasing effect.

It is estimated by the *Banner* that there are over 100 acres of land under the township of Esquesing. The yield of the past season was about 600 lbs. per acre, as against 800 last year; the price last year was from 40 to 50 cents per lb., while it is as low as 15 cents per lb. at the present.

**A GRAND MARONIC FESTIVAL** came off in Elora, on Monday, in honor of the installation of the officers of the Irving Lodge No. 203. James Seymour, Esq., of St. Catharines, presided, and an eloquent and instructive address was given by Otto Klotz, Esq., of Preston. The *Observer* says that upwards of 200 persons were present.

**A LIZARD**, four inches long, was recently ejected from the stomach of a woman in the vicinity of Elora. The *Times* says that the reptile had been annoying her for nearly two years; but how it got into the woman's stomach, and sustained life, is a mystery. Dr. Middleton has secured the lizard, alive and kicking, in a vial.

**A MEETING**, under the auspices of the Ministers of Orangeville, will be held in the basement of the Primitive Methodist Church, First Street, on Tuesday evening next, at 7 o'clock, for the purpose of organizing a "Young Men's Christian Association." The movement commends itself to every right thinking citizen, especially our young men, and should be generously encouraged.

**NEW MILLS IN MICHIGAN.**—Mr. Alex. Laidlaw has just erected a splendid flouring mill at Boyne, in the Township of Mulmur, for the enterprising firm of Messrs. J. Mulkin & Sons. The mill is 48 feet long by 36 feet wide, three stories high, and contains three runs of stones, driven by an improved turbine water-wheel, manufactured by Messrs. Evans, Inglis & Co., of Guelph. The machinery and general set up of the mill are of the most modern and improved patterns, and reflect great credit on Mr. Laidlaw, who planned and superintended the work.

**AMONGST** the places made by individual enterprise and good roads, is the village of Rothsay, in the County of Wellington. A few years ago the site was a bush; but it now contains a steam saw and grist mill, running night and day; flour stores; a steam wagon and shingle factory, capable of turning out 25,000 shingles per day; three carriage shops; two blacksmith shops; shoe shops; a brickyard and a tannery in course of erection; three well-conducted hotels; and a Presbyterian, an Episcopal and a Wesleyan Church.

**THE ANNUAL PLowing MATCH** in connection with the Agricultural Society of Erin, took place on Thursday, in a field of sward belonging to Mr. E. Johnson. The attendance was large considering the inclemency of the weather. Prizes were awarded as follows:—*First Class*—1st, Geo. Robinson; 2d, Colin Campbell; 3d, J. D. Currie; 4th, D. McEachern. *Second Class*—1st, John Everdell; 2d, James McArthur; 3d, J. Calder. *Third Class*—1st, H. Talbot; 2d, H. R. Smith; 3d, John Currie; 4th, Wm. Mooney. A prize of \$1 was awarded to Angus Ferguson.

**TORONTO, GREY & BRUCE RAILWAY.**—On Friday, Saturday, and Monday the municipalities of Orangeville, Amaranth, and Caledon, respectively, granted bonuses of \$15,000, \$30,000, and \$40,000 in aid of the Toronto, Grey & Bruce Railway. In Orangeville and Amaranth the aid was carried with one dissentient vote in each, and in Caledon the major

...may, on the whole, be considered a success. The various classes were fairly represented, and the number of entries in each class far ahead of last year, both as regards quantity and quality. The stock of horses, horned cattle, and sheep were numerous and good. Grain and roots were plentiful. The ladies' department contained an assortment of useful and valuable articles, in viewing which the visitors took great interest. Competition was sharp in every class, but although this was the case, we believe the decision of the judges was not once called in question, but, on the contrary, gave general satisfaction. Subjoined is the

**The Railway Meetings in Caledon.**

**MR. EDITOR,**—You are aware that Messrs. McNab, Laidlaw, and McMaster, of the Toronto, Grey & Bruce Railway Company, were in Caledon holding meetings in the various wards of the township last week. The first came off on Wednesday evening in Harris's Hall, Charleston; it was well attended, and a great success. Mr. McLaren and Mr. McLaughlin were supposed to be hostile to the movement, at least to the granting of a bonus, but they expressed no opinion of that kind at Charleston, that is in a public way. Next day, Thursday, there were two meetings, one at Silvercreek and the other at Mono Mills; at these also, the Toronto men had their own way. But for excitement, interest, and personal attack, the Alto meeting on Friday night carried off the palm. Meek's Hall was well filled; Dr. Riddall was called to the chair, which, as usual, he occupied with credit to himself and satisfaction to all concerned, and called upon Mr. McNab to open the campaign. His speech was neat and business-like, as he speaks with a precision that amounts to almost mathematical exactness. His arguments were clear, but they had but little or no force. He is not at all adapted to carry with him a popular audience. The next speaker was our own Reeve, Mr. McLaren, who was called upon to state to the meeting his real objections to the railway and the bonus. He said that he had always advocated the Credit route, because he knew that a railroad there would be more advantageous to Caledon and the country at large than by Charleston. However, he was not only opposed to the route by Charleston, but he was diametrically opposed to the Company's By-law, and said that he could prove by the gentlemen present that he stated in presence of the Directors in Toronto that he would not give \$10,000 bonus even to the Credit route on that very objectionable By-law the Company had put in our hands. The fact is, Mr. McLaren made an able speech, a masterly and gentlemanly defense of his position. He has proved himself to have far more stamina than he gets credit for. With deference to the Toronto delegation, I fancy there is not one of them dare attack A. McLaren in single hand combat in a fair field and no favor. Mr. McNab was the next speaker. He rose for the purpose of replying to the Reeve's speech, as he had taken notes and was therefore prepared to take down Mr. McLaren's arguments in due order. But did he succeed? No; as Terry Finggan says, "No thank ye, he did no such thing." The Reeve made an impression that McNab could not remove. The latter gentleman was in a straight jacket, many and great were the efforts he made to get free, but in vain; his efforts were as abortive as those of a caged lion. The next speaker called upon was Mr. Laidlaw; from him great things were expected, and certainly we may say of his speaking, as an old gentleman of my acquaintance said of his son's running, "My son does not run pretty, he runs strong." Such personal abuse as Mr. Laidlaw was pleased to pour upon the devoted head of our Reeve, it has never before fallen to my lot to hear. It is said that Daniel O'Connell bet that he could outdo any old wife in the fish

He rose for the purpose of replying to the Reeve's speech, as he had taken notes and was therefore prepared to take down Mr. McLaren's arguments in due order. But did he succeed? No; as Terry Finggan says, "No thank ye, he did no such thing." The Reeve made an impression that McNab could not remove. The latter gentleman was in a straight jacket, many and great were the efforts he made to get free, but in vain; his efforts were as abortive as those of a caged lion. The next speaker called upon was Mr. Laidlaw; from him great things were expected, and certainly we may say of his speaking, as an old gentleman of my acquaintance said of his son's running, "My son does not run pretty, he runs strong." Such personal abuse as Mr. Laidlaw was pleased to pour upon the devoted head of our Reeve, it has never before fallen to my lot to hear. It is said that Daniel O'Connell bet that he could outdo any old wife in the fish

**MR. EDITOR,**—You are aware that Messrs. McNab, Laidlaw, and McMaster, of the Toronto, Grey & Bruce Railway Company, were in Caledon holding meetings in the various wards of the township last week. The first came off on Wednesday evening in Harris's Hall, Charleston; it was well attended, and a great success. Mr. McLaren and Mr. McLaughlin were supposed to be hostile to the movement, at least to the granting of a bonus, but they expressed no opinion of that kind at Charleston, that is in a public way. Next day, Thursday, there were two meetings, one at Silvercreek and the other at Mono Mills; at these also, the Toronto men had their own way. But for excitement, interest, and personal attack, the Alto meeting on Friday night carried off the palm. Meek's Hall was well filled; Dr. Riddall was called to the chair, which, as usual, he occupied with credit to himself and satisfaction to all concerned, and called upon Mr. McNab to open the campaign. His speech was neat and business-like, as he speaks with a precision that amounts to almost mathematical exactness. His arguments were clear, but they had but little or no force. He is not at all adapted to carry with him a popular audience. The next speaker was our own Reeve, Mr. McLaren, who was called upon to state to the meeting his real objections to the railway and the bonus. He said that he had always advocated the Credit route, because he knew that a railroad there would be more advantageous to Caledon and the country at large than by Charleston. However, he was not only opposed to the route by Charleston, but he was diametrically opposed to the Company's By-law, and said that he could prove by the gentlemen present that he stated in presence of the Directors in Toronto that he would not give \$10,000 bonus even to the Credit route on that very objectionable By-law the Company had put in our hands. The fact is, Mr. McLaren made an able speech, a masterly and gentlemanly defense of his position. He has proved himself to have far more stamina than he gets credit for. With deference to the Toronto delegation, I fancy there is not one of them dare attack A. McLaren in single hand combat in a fair field and no favor. Mr. McNab was the next speaker. He rose for the purpose of replying to the Reeve's speech, as he had taken notes and was therefore prepared to take down Mr. McLaren's arguments in due order. But did he succeed? **STATUTES OF ONTARIO.**—The Government of Ontario is evidently not afraid to have its acts made public. The Press has been liberally supplied with the acts passed during the first session of the Legislature, a neatly bound copy of which reached us last week.

**TAXATION** in the United States has increased from \$4.32 per head of the population in 1860 to \$23 a head in 1864. A country prospering under so great a burden must be possessed of extensive national resources and a liberal spirit of public enterprise to develop them.

**JOURNALS OF THE LEGISLATURE OF ONTARIO.**—A record of the proceedings of the first session of the Legislature of Ontario came to hand some time ago, appended to which is an excellent report on Education. In this report a comparison is instituted between the American, European and Canadian School Systems, and some useful suggestions offered for the further improvement of our educational system, which we should like to see adopted. The work will be found a useful book of reference.

### NARROW GAUGE RAILWAYS.

**TORONTO** is evidently not so unanxious as it ought to be on the question of supporting the construction of the Toronto, Grey & Bruce, and Toronto & Nipissing Railways. At a meeting of the City Council held on Monday, Mr. Bosall introduced a by-law to grant \$400,000 bonus in aid of these projects; but the proposition was so strongly opposed by Messrs. Baxter, Sheard and others, on the ground that it would be inadvisable to add to the indebtedness of the city, which already reached two millions of dollars, that no satisfactory decision was arrived at before the hour of adjournment. A majority of the Council, however, seemed willing to submit the matter to the decision of the ratepayers, and if left to them, there is every reason to believe that they will support the grant. Indeed, the future prosperity of Toronto, in a great measure depends upon the construction of these railways; the country has already subsidized them; and if a bonus from Toronto is all that is required to secure their early commencement and speedy completion, we may rest assured that it will be soon forthcoming. A majority of the Council is undoubtedly in favor of making the grant, and with the ratepayers almost unanimously so, we shall probably soon hear of a liberal subsidy having been voted, both by the Council and citizens of Toronto.

### THE LEGISLATURE OF ONTARIO.

This session of the Legislature of Ontario proposes to deal with momentous issues which must render an account of its proceedings important and interesting to the readers of *The Sun*. We shall therefore watch its proceedings with earnest solicitude, and shall from week to week endeavor to furnish a clear and connected synopsis of everything of importance that transpires.

Such a summary of the past week's proceedings may be found in another column, and from it our readers will learn that the programme of the Ministry is so popular and unexceptionable that even the leaders of the Opposition frankly acknowledge that no amendment or addition could with advantage be made to it. Indeed, the principal cause of complaint with them is that Ministers have pursued their policy and embodied it in their programme.

The public accounts were laid on the table on Tuesday, having been submitted to the Assembly with commendable de-

cernment of the Canadian Confederacy a fair trial. This is what we have long expected from Mr. Howe. A man with his clear head and great knowledge of public affairs, could not be long persuaded to continue a movement which promised no success, and threatened to endanger the peace and good government of his country. With his abandonment of the repeal movement, it will soon die out in Nova Scotia; and another year will, in all probability, find the whole Dominion united in heart as well as in law.

### Orangeville and Vicinity.

Snow to the depth of three inches fell in Orangeville on Wednesday night.

OVER one hundred dollars have been raised for the purpose of establishing a library at Lacey, in Lequensing.

MR. ANDREW MURRAY, of Luther, had a span of mares stolen from his premises on Wednesday night. No trace has yet been obtained of the missing animals.

THE ELORA FAIR, on Tuesday last, was well attended, and a large number of cattle changed hands at moderate prices. The stores in the village done a large amount of business during the day, in the sale of dry goods and groceries.

MR. FRANCOIS IRWIN at his General Store on Broadway, is doing an immense business in the dry goods, clothing, millinery, groceries, and hardware trade. Few examine his goods and prices without becoming purchasers.

TENDERS are invited for the erection of an Orange Hall at Moss Mills, for Loyal Orange Lodge No. 192. The building is to be a substantial rough cast, 20 by 35, on a stone foundation, and is to be completed by the 1st of July, 1869.

At the Wellington Assizes, held in Guelph last week, ten prisoners were tried for criminal offenses, committed during the past month. Two of these cases were for manslaughter, three for homicides, one for murder, two for petty larceny, and two for cattle-stealing. Pretty good for a thirty days' bill of crime.

**GUNPOWDER PLOT.**—Thursday last being the anniversary of the discovery of the Gunpowder Plot, was celebrated in a befitting manner by the Orangemen of this Village and vicinity. The members of Lodge No. 365 attended divine service in the morning at Bethel Church, where an excellent sermon, suitable to the occasion, was preached by the Rev. W. E. McKay, B. A. The members of 427 spent an agreeable afternoon in a friendly and social manner at their Lodge Room on West Broadway, and the day was similarly observed by the brethren in the country. The proceedings passed off in a quiet and orderly manner.

**THE WESLEYAN MISSIONARY COMMITTEE** commenced its annual session at Guelph on Tuesday evening; 80 delegates were present. The Rev. Mr. Punshon presided, and important business was transacted. The annual meeting in the evening at the Wesleyan Church had a large attendance. Mr. J. McDonald of Toronto in the chair. After an address by the chairman, the Rev. Dr. Wood read a report on the mission of an encouraging character. The Rev. Dr. Taylor read the financial report, showing the balance in hand to be \$10,137. Addresses were read by Rev. E. B. Harper, Mr. Gibbs M. P., of Oshawa; Rev. Dr. Evans, a returned missionary from British Columbia; A. W. Jauder, M. P. P.; Judge Deacon; and the Rev. W. M. Punshon. \$12.30 was subscribed towards the building of a new church in Red River.

**THE NEW WESLEYAN METHODIST CHURCH.**—We learn that the meeting called for Monday evening last, in the W. M. Church, Second Street, was very encouragingly attended. A resolution, moved by Dr. Culbert and seconded by Mr. Byers, was unanimously carried, requesting the following gentlemen—Messrs. Jull, Jackson, Byers, Armstrong, and Anderson, with the Pastor—to act as a Committee to procure plans and secure an eligible site and report at the next meeting. The opinion was expressed that \$6,000 would be required by the congregation, and in keeping with the growth of the times, and the growth of the town, it was also looked upon as a settled question that all requisite preparation should be made during the winter for commencing to build early next spring. The meeting adjourned till Monday, 23d inst., at 7 1/2 P. M.

precision, and appeared to be quite familiar with the use of the Snyder. After the inspection, Lieutenant-Colonel Dennis complimented the men upon their proficiency and soldierly bearing, and also informed them that the Volunteer Force was about to be reorganized under the new Militia Law—that those who had served three or five years might withdraw from the service by giving six months' notice, and that in the event of a sufficient number of new volunteers not joining to fill the different companies, a draft would be instituted to make up deficiencies, from which those who had already served, and retired would be exempt. He then requested those who wished to re-enlist for a further term of three years to take a step in advance of the line, but only three responded to the call, one of whom belongs to the staff of *The Sun*. As many of the company are married, business men, who cannot afford to lose the time which the practice of arms involves, and who only joined the force when the country was threatened with invasion; now that the danger is past, they will most probably tender their resignations and allow the first-class, unmarried men, to take the place they have so ably filled. In the event of a sufficient number of Volunteers not being forthcoming, the draft will doubtless be enforced, but in Orangeville it is probable that no such measure will be required to fill the company.

#### THE LEGISLATURE OF ONTARIO.

OPENING OF THE ASSEMBLY.—LIEUT. GOVERNOR'S SPEECH.

THE SECOND SESSION of the Ontario Legislature was opened on Tuesday, 3rd of November, at 3 o'clock p.m. There was a large and brilliant assemblage of ladies and gentlemen in attendance. The Speaker's gallery and other parts of the House were crowded. His Honor, Lieutenant-Governor Howland, was escorted to the Parliament House, by a troop of the 13th Hussars. The following is the Governor's Speech, which was read in a clear distinct voice, from the Speaker's chair:—

Mr. Speaker, and Gentlemen of the Legislature Assembly:

It affords me sincere gratification to meet you for the first time, when you are about to enter on the consideration of numerous measures affecting the public interest, of which, as the representatives of the people, you are the guardians, and in thus assembling you, I have selected that season of the year in which you can most conveniently be spared from your various avocations.

I have derived the liveliest satisfaction from my visit to the Provincial Exhibition at Hamilton, where the display of the products of the soil gave tokens of its increased productiveness, and of the increased industry of the farming population, while the superior character of the live stock testified to the advanced state of our husbandry, and reflected the highest credit upon the enterprise of the people. I was gratified to observe the many proofs of the skill of our artisans and manufacturers, and the ingenuity applied to those improvements by which manual labor is diminished, and at the same time rendered more productive. And it was an additional pleasure to note besides those fruits of mechanical skill, such a representation of the more cultivated arts as gave promise of the noblest achievements in time to come. The spectacle altogether clearly indicated a diffusion of individual wealth, and a general state of advancement and prosperity, in marked contrast with the condition of the colony as I recollect it within the past quarter of a century.

I regret that circumstances which could not be controlled have thus far prevented the arbitrators appointed to adjust the differences between this province and that of Quebec, in respect to certain debts and assets to be apportioned between them, from entering on the task assigned to them. I have, however, good grounds for believing that the examination of accounts relative to these matters will shortly engage their attention, and I trust to be able to announce, at an early day the final result of their deliberations.

It gives me much pleasure to inform you that the policy adopted by you during the last session with respect to Free Grants, has been, in a great measure, successful, and it will now be for you to con-

tinued and outlay in the administration of justice without impairing its efficiency—and notification of the present law relating to mines and minerals, with a view further to encourage the development of this important source of our Provincial wealth, will be among the measures that will be submitted for your consideration. I commend to you as objects imperatively calling for your sympathy, the deaf, dumb and blind. The necessity is felt for a public institution worthy of the province, in which these classes of our fellow subjects may receive such a course of instruction as will tend to ameliorate their condition, and render them at the same time, more useful members of society. It will be for you to decide what measure of relief should be extended to them.

I cannot avoid bringing under your special notice the state of the prisons, at once the receptacle of the hardened offender and the novice in crime, generally huddled together without regard to their classification. The latter surely ought not to be exposed to influences calculated to stiffen their disposition to reform when again at liberty. The objection to the present system is still more obvious in the case of untried prisoners, who may not be found guilty of the crime for which they are committed. Still more is it clear in the case of females of a like class. I recommend to you strongly the erection of institutions in equal localities, to which those sentenced to periods less than two years, may be transferred from the surrounding jails, to undergo their term of punishment under a system of rigid discipline analogous to that of penitentiaries, and where their labor can be utilized towards defraying the cost of their own maintenance.

I shall direct the public Accounts, with the Estimates for the coming year to be laid before you, and I have no doubt that the appropriation voted during the last session, will be found to have been expended thus far with care and a due regard to economy.

I rely on your readiness to grant the supplies necessary for the public service.

In legislating on all these and other measures which have for their object the promotion of the moral, intellectual and material well-being of the people of this prosperous province, you will find me ever willing and anxious to co-operate with you. Enjoying in constitution framed, I may say, in accordance with your own expressed wishes, which secures to us the great boon of self-government, to which we are daily becoming more attached; with no burdensome taxation to oppress us, and shielded by the powerful nation whose history and traditions are justly cherished by us, and to which we can at all times appeal for protection in the hour of danger, Ontario may well exult in the enjoyment of great and singular advantages.

Let us trust, under God's providence, that our legislative labors may conduce to the realization of the peace, happiness and contentment of our people.

After His Honor had finished reading the Speech, he retired amid the ringing of artillery, accompanied by his suite and military escort, which ended the pageant.

At half-past three o'clock the Speaker took his seat.

The Attorney-General introduced a Bill with respect to Justices of the Peace, which was read and ordered to be read a second time this day forthwith.

Mr. Calvin, the new member, having taken the oath, was introduced, and took his seat for the County of Frontenac.

The Attorney-General moved that the Speech be taken into consideration on Wednesday. The motion was carried.

#### PETITIONS.

On Wednesday petitions were presented, praying for the passage of acts to grant aid in public works to the Huron and Ship Canal, to consolidate the acts affecting the Marquette Railway and Mining Company, to determine the mode of ascertaining the line of broken lots in the Township of Toronto, to permit girls to attend Grammar Schools on the same basis as boys, and aid Victoria College in Coburg, and for permanent provisions in aid of education.

#### MOTIONS.

Mr. Lount in an able address moved the resolutions in reply to the Speech of the Lieutenant-Governor, which were seconded by Mr. D. Calvin. A long discussion followed, in which the policy of the Ministry was generally accepted.
